

CLEVELAND UTILITIES WATER TREATMENT PLANT OPERATOR – NIGHT SHIFT

ESSENTIAL FUNCTIONS:

- Inspect equipment or monitor operating conditions, meters, and gauges to determine load requirements and detect malfunctions.
- Collect and test water samples using test equipment and color analysis standards.
- Record operational data and meter and gauge readings on specified forms.
- Maintain detailed records of quality control results and operational adjustments.
- Run tests and analysis as required for efficient plant operations.
- Maintain adequate quantities and appropriate feed rates of treatment chemicals.
- General plant housekeeping and cleaning.
- Collect water samples.
- Follow schedule of water sampling.
- Other miscellaneous duties as required by the Chief Operator.
- Operate plants at both HUC and Cleveland Filter Plant.

PERSONAL REQUIREMENTS:

- A high school diploma or GED equivalency required. Associate's Degree (two year college or technical school) preferred.
- Ability to use Microsoft Windows, MS Office, understand charts and graphs and interpret results required.
- Knowledge of (SCADA) software a plus.
- Tennessee certification as Grade III or IV Water Treatment Plant Operator preferred but not required. Must be able to obtain a minimum of a Grade III certification within 18 months of qualifying.
- Hold and maintain a Tennessee Class D vehicle operator's license.
- Ability to work a 4 p.m. – 12 a.m. shift.

PHYSICAL REQUIREMENTS:

- Ability to lift and carry up to 50 pounds of chemicals or equipment.
- Ability to climb stairs and ladders, and ability to enter and exit manholes and pits.
- Ability to handle high-pressure water hoses.
- Ability to wear self-contained breathing apparatus for extended periods.
